CLAUSES INCORPORATED BY FULL TEXT

52.212-2 EVALUATION--COMMERCIAL ITEMS (JAN 1999)

The Government will award a contract resulting from this solicitation to the responsible offeror whose offer conforming to the solicitation will be most advantageous to the Government, price and other factors considered.

In accordance with Federal Acquisition Regulation 13.106-2 (b)(3) – Evaluation Procedures, quotations will be evaluated in an efficient and minimally burdensome fashion by evaluating only the lowest priced quotation. Factor(s) will be evaluated for technical acceptability and will be scored on a Pass or Fail basis. If one or more of the lowest priced quotation's factor(s) is rated as Fail, then the next lowest priced quotation will be evaluated. The process will be repeated until award is made on the basis of the lowest evaluated proposal price whose factor(s) are rated as Pass.

The offeror is responsible for submitting a well-written proposal, with adequately detailed information, which clearly demonstrates compliance with the solicitation requirements.

Past Performance (Factor): Past performance is an indicator of an offeror's ability to perform the contract successfully. This factor will be rated Pass or Fail based on whether the offeror demonstrates successful past performance. In the case of an offeror without a record of relevant past performance or for whom information on relevant past performance is not available, the offeror must demonstrate successful past performance regarding predecessor companies, key personnel or subcontractors that will perform major or critical aspects of the requirement who have experience relevant to the Government's requirement. Past failure to apply sufficient tenacity and perseverance to perform acceptably is strong evidence of unsuccessful past performance. Also, failure to meet the quality requirements of a contract is a significant factor to consider in determining satisfactory performance.

The offeror must submit information from at least three past (completed in the last 3 years) or current contracts (including Federal, State, and local government and private) which were/are similar in size and complexity, including greater in size and complexity, to the to the Government's requirement. Offerors must include the following information for each of the three contracts.

- Name of customer
- Customer's telephone number
- Brief description of contract
- Total contract value
- Performance period

Offerors may provide information on problems encountered on the identified contracts and the offeror corrective actions. The Government will consider the currency and relevance of the information, source of the information, context of the data, and general trends in contractor's performance. The Government will consider this information, as well as information obtained from any other sources.

KEY PERSONNEL QUALIFICATIONS (Technical Factor): The Government will evaluate the offeror's Key Personnel Qualifications to assess their technical knowledge and experience similar in size and complexity to the Government's requirement. The offeror shall demonstrate that a geologist works for their company

(b) Options. The Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. The Government may determine that an offer is unacceptable if the option prices are significantly unbalanced. Evaluation of options shall not obligate the Government to exercise the option(s).

(c) A written notice of award or acceptance of an offer, mailed or otherwise furnished to the successful offeror within the time for acceptance specified in the offer, shall result in a binding contract without further action by either party. Before the offer's specified expiration time, the Government may accept an offer (or part of an offer), whether or not there are negotiations after its receipt, unless a written notice of withdrawal is received before award.

(End of clause)

An offeror shall complete only paragraph (k) of this provision if the offeror has completed the annual representations and certifications electronically at <http://orca.bpn.gov>. PERFORMANCE WORK STATEMENT

PREPARATION OF TECHNICAL DOCUMENTATION FOR THE PROVISION OF FILES PERTAINING TO OBTAIN ITALIAN AUTHORIZATIONS FOR WATER EXTRACTION

The scope of work of this contract is the preparation of the documentation necessary to obtain the authorization for the extraction of water for potable and industrial use from the local Italian administrations, in compliance with current Italian laws and norms. The documentation shall consist of all the documents required by the administrations as to the quantities, forms and any other documentation called for by the administrations, including the request for extraction.

The contractor shall develop the documentation for two potable wells and two industrial wells located in the USAG Livorno Ammunition Storage Area, one industrial well located on USAG Livorno, three Industrial wells located on Leghorn Army Depot and one industrial well located on the Coltano Communications Site. The contractor shall supply and install on each well a water consumption meter and conduct all field investigations to comply with the requirement of the applicable legislation in order to obtain the authorization for water extraction. Technical characteristics of the wells and data related to quantities of water drawn by each well will be provided to the contractor by the Environmental Office.

A list of documents to be developed by the contractor is provided for information only. The contractor is required to develop any other supplemental document requested by the Italian Authorities without additional cost to the Government.

Documentation to be provided for the request of water extraction for public use (R.D. 1775/1933, art. 7)

- 1) No. 1 copy on stamped paper (E. 14.62) and No. 2 copies on unstamped paper of the request for concession (unloadable at the following internet address: www.provincia.pisa.it) addressed to Provincia di Pisa – Servizio Difesa del Suolo di Pisa, P.zza Vittorio Emanuele II, 14 – 56125 Pisa, undersigned by the requestor, as per T.U. 1775/1933; the request shall specify the following information:
 - a. Domicile, date and place of birth, telephone number, fiscal code number of the requestor;
 - b. Required quantity of water in cubic meter/year (and only for irrigation purposes, hectares to be irrigated);
 - c. The use for which the branching is requested;
 - d. Copy of the requestor's valid identity document, with both sides copied on the same sheet;
 - e. Statement replacing the certificate of enrolment at the Chamber of Commerce if the requestor is a company;
 - f. In case of branching from underground water, indicate the references of the authorization to the pertinent search (requestor, file number, authorization number and date).
- 2) Estate plan of the grounds subject to branching and use; if, at the time of the request, the grounds still result owned by the previous owner, also a copy of the contract of sale or a certificate of performed notification of succession;
- 3) In case the water extraction is located in areas owned by third parties, provide a document stating the owner of the land is aware of the requestor's intension to get an authorization to branch off from public waters (with a copy of a valid identity document, both sides on the same sheet) (only for wells);
- 4) Receipt of 30 Euro payment for administrative expenses and survey, deriving from a postal payment on current account n. 13478565 addressed to the Provincia di Pisa, Piazza Vittorio Emanuele II 14, 56125 Pisa (reason: request for authorization to branch off from public waters);
- 5) 4 copies of a technical report, signed by a professional engineer (as per T.U. 1775/1933 and D.M. 11/3/88 – letter "L") and one copy on digital support with extensions Doc., Xls, Rtf., Dwg., Jpg., Tif., Bmp., Shp., Cdr., Pdf., Dbf, containing the following documentation:
 - a. Chorography in scale 1:25000 with the exact location of the water taking point (and with the indication of the grounds to be irrigated, only for irrigation uses)
 - b. Topographic framing in scale 1:10000 with location of the water taking point (and with the indications of the grounds to be irrigated, only for irrigation uses)
 - c. Cadastral map certification in scale 1:2000 of the above cited grounds, with the wording "copia conforme all'originale" (copy consistent with the original), stamp and signature;

- d. Geo-morphological and hydro-geological framing of the area, also taken from the existing data (only for wells);
 - e. Stratigraphy of the grounds crossed by perforation (only for wells);
 - f. Construction layout of the well in adequate scale;
 - g. Ratio on the characteristics parameters of the well: depth, diameter of perforation, diameter of piping, location of filters, plugs, cement pouring (only for wells);
 - h. Delivery step or well test: characteristic bend of the well, estimation of the parameters B and C of the characteristic bend, optimal operation delivery (Q_e), critical delivery (Q_c) (only for wells);
 - i. Ratio on the characteristics parameters of the water table: drive (T), storage coefficient (S), permeability (K), action range (R) taken from the long range pump test (only for wells);
 - j. Chemical-physical characteristics of the water (only for wells) pH, T(°C), hardness (°F), bicarbonates (HCO_3), electrical conductivity in s/cm, chlorides (Cr), Sodium (Na^+), Calcium (Ca^{2+}), Potassium (K^+), Manganese (Mn^{2+}), Sulfates (So_4^{2-}), Magnesium (Mg^{2+}), Iron (Fe^{2+}), Nitrates (NO_3), Nitrites (No_2), Ammonium ion (NH_4^+);
